PROJECTS

Project Name	Skills	Description
QKart Frontend | 🔗 📅 07, 2023 – 08, 2023	**React, Material UI, REST APIs, Responsive Design, Error Handling**	Revamped e-commerce platform with enhanced user experience, incorporating, core authentication, responsive design, and dynamic data loading via REST APIs.
QTripDynamic | 🔗 📅 05, 2023 – 06, 2023	**HTML, CSS, Heroku, JSON, Bootstrap, JavaScript, Netlify CLI**	Built QTrip, a dynamic travel website, using HTML, CSS, and JavaScript. Enhanced UX with multi-select filters and image carousels. Enabled client-side data storage with localStorage.
QTripStatic | 🔗 📅 03, 2023 – 04, 2023	**HTML, CSS, Bootstrap, Netlify, VS Code Live Server**	Developed QTrip, a travel website for adventurous explorers in diverse cities. Created three web pages from wireframe layouts using HTML and CSS. Leveraged Bootstrap for responsive design and deployed on Netlify.
XBoard | 🔗 📅 06, 2023 – 07, 2023	**HTML, CSS, Bootstrap, JavaScript, ES6, DOM Manipulation, REST API, Netlify, Netlify CLI.**	Developed XBoard, a dynamic News Feed website with a modern UI, employing HTML, CSS, Bootstrap, and JavaScript. Integrated intuitive features like Accordions and Image Carousels for seamless navigation and accessed real-time news content through Flipboard's RSS feed via REST API.
